than go on strike.—Ex.

The Republican split in New
York is becoming serious, and
President Roosevelt is having poor
luck in his efforts to conciliate the
warring factions. Gov. Odell is in
control of the State machine, and
Senator Platt's friends are protest-
ing against the removal of State
Chairman Dunn and the changes
in minor committees.

DONITHON.

Moving seems to be the order of
the day, one Democrat going out
and two coming in. L. K. says
they are all welcome. But we
don't see why he should care when
his precinct has got to going
Democratic anyway.

this month. Also, Saturday night

folks are going to Gallup Sunday

culling tins. He was wearing a
broad smile and when questioned
as to why he looked so pleasant re-

thirteen of his children can vote
the Democratic ticket, as one of
the twins is a girl.

selle.

Grace Chapman was the guest

One of Louisa's public-spirited citizens has offered a prize in the Public School. It is to be given to that member of the Rotary club who will have collected and classified the finest herbarium of native wild flowers by the end of the school year.

Big Sandy Appropriation.

As stated last week, Col. Northrup reports that the recent hearing before the Rivers and Harbors Committee was the most satisfactory ever had. He made the opening statement to the committee, asking that the Big Sandy be placed under the continuing contract system, and that \$100,000 be appropriated in the present bill. \$450,000 of this is for two additional dams, one in each fork of the river, and the other \$40,000 is to be used in completion of the work at the mouth of the river.

Col. Northrup was followed by T. R. Brown, B. R. Hiss, Hons, F. A. Hopkins and J. A. Hughes. Hon. J. N. Kehoe was present, as he always is, but owing to the time given the others he did not make any extended remarks. The speakers all covered different points in the case and made a very strong showing.

The building of these dams above will benefit Louisa more than all the work that has been done heretofore.

Raise More Potatoes &c.

Seeing potatoes, onions, cabbage, &c. shipped in here from the Cincinnati market suggests that there is something wrong with the policy of our farming population. These products and many more grow here as well as elsewhere in the world with proper cultivation. We should produce them in enormous quantities and not only supply the local market, but ship to other markets. More of this class of products rather than mere corn is the proper course to pursue. We must produce more than we consume in order to be prosperous. The man who follows the motto of trying to do more this year than he did last is the one who succeeds.

Further information as to the case of Mrs. T. C. Sanger, of Ashland, whose convalescence was mentioned last week, shows that we give too much credit to the X-rays treatment. Dr. P. C. Layne is the physician in the case. He is alternating the X-rays with other treatment, and his success seems unusual. He is not yet ready to announce a cure, however. He wants time to prove whether the results achieved are permanent.

Mrs. A. M. Campbell went to Richmond, Ky., a few days ago to join her husband, whose headquarters as Assistant U. S. Engineer are at that point. Louisa has also lost another desirable couple, Mr. and Mrs. H. C. Corns. Mrs. Corns left Cincinnati yesterday for Galveston, Texas, where her husband is employed in the U. S. engineering service. We regret to lose these people and hope to have them back before a great while.

M. I. Hanks, chief engineer on the C. & O.'s Big Sandy extension, was here this morning enroute from a visit to his home at Richmond, Va., to his work up Sandy. He was accompanied by two young lay relatives, Miss Georgia Ligon and Miss Myrtle Vinson, both of Richmond, who are going to see the elephant in Big Sandy country for a few days.—Ashland Independent.

The Appellate court has reversed the Boyd Circuit Court in the case of the Chesapeake and Ohio Railroad Company vs. James G. See's administrator. See was killed while walking on a track near Catlettsburg. The Lower court awarded damages. This court holds See was a trespasser and peremptory instructions should have been given for defendant.

Mrs. Jas. Vinson, for some time the popular landlady of the "Price House," on Louisa street, is moving back to Louisa, the Price property having passed into other hands.—Catlettsburg Press.

She has moved into her residence on lower Water street. D. Brown, who has been living in the property, has moved into the rooms over his store.

The Council has a proposition up to increase the tax rate, but it will probably not be done until we get water works.

Plans for a new city building were presented at the meeting Tuesday night. The lowest cost is estimated at \$2200. It contemplates a complete change from plan of old building.

In another column will be found the bill for the next Sunday dinner at the Hotel Brunswick. They are paying special attention to their Sunday service so as to accommodate the people who prefer to go to a hotel rather than prepare dinner at home on this day.

The House passed the bill introduced by Representative Hughes, of West Virginia, authorizing the Norfolk and Western Railway Company to bridge the Tug Fork of the Big Sandy river at certain points where the same forms the boundary line between West Virginia and Kentucky within a three-year limit.

A car load of magnificent beech logs, both in size and quality, were products of Big Sandy exported to Europe recently.

Rural Route Established.

The first rural route established in Lawrence county has been ordered to start on April 15th, with O. A. Atkins as carrier and George L. Atkins as substitute. The carrier will leave Louisa at 10:20 a. m. daily, returning at 5:30. The distance is 24 miles. Population served, 708. Number of families 157.

The route follows the Blaine road to the forks of Little Blaine, 7 miles from Louisa; up the left fork to the vicinity of Ivory post-office; across the hill to Mead's Branch, striking the river at Dr. Atkinson's; thence down to the Garred place, and following the Lick creek road to Louisa. About 60 families have already purchased boxes to be erected by the roadside. The remainder will probably do so at once. If the boxes are of the kind approved by the postoffice department, full protection will be given them by the government.

Boys, Here Are Two Chances.

In a box of fine California peaches Mr. R. T. Burns found a sheet of paper with these two addresses:

Sadhu McGinnis,
128 Calaveras Ave.,
Fresno, Cal.

Mattie Shaw,
Box 535,
Fresno, Cal.

Each gives her age as 18. Mr. Burns says the quality of the fruit packed by them is any indication, the girls are certainly a pair of luscious "peaches" themselves. He thinks it would be well worth the price of a postage stamp to any young man looking for a better half to drop a few tender lines to these Magnolia buds.

A Business Change.

A. J. Loar & Co. have sold their store to Ragland & Shipman, of Lexington, Ky., who will take charge of the business April 1st. Mr. Loar has not decided upon his future course, but expects to reach a conclusion soon. The gentlemen who have bought the store commended highly recommended as progressive business men. They are favorably impressed with Louisa's good prospects.

Miss Lillian Holt, of Edley, W. Va., returned home last Saturday after a few days visit among friends and relatives here.

Uncle George Carter, of Yatesville, was here Monday of this week. He informs us that the smallpox scare is about over, in his neighborhood and those having the disease are all much improved.

James Compton has built an addition to his shop and is now ready to do wagon work there liberally.

F. R. Hussey has treated his mill to a new roof, which adds very much to its appearance, also to its surroundings.

John Workman, our genial saw mill man has finished sawing in this vicinity and has removed his family to Deep Hole Branch. His mill will be taken to the upper highlands of Twin Branch.

Noy Jones is moving his saw to the farm of Peyton Blackburn where there is considerable sawing to be done.

Wm. Thompson, of Irishy, passed here Tuesday with a new saw mill. His first set will be on the lands of Mill Evans at Prosperity.

Marion Hughes is now moving into the property vacated by John Workman.

Honors for a Louisan.

The Huntington advertiser tells of the election of a Louisan to a place of honor:

"The painters and paper hangers of Ironton, Ashland and Huntington held a well attended meeting in Ashland and organized a district council of the Brotherhood of painters, decorators and paperhangers of America. This council represents all the union painters and paperhangers in the territory from Hanging Rock to Guyandotte, and is expected to be very beneficial for the painters, as well as for the contractors, as it will equalize the working hours, wages, etc., in this territory. The headquarters will be in Ashland, and its officers are:

President—L. B. Ferguson, Huntington.
Vice-President—J. B. Barbee, Catlettsburg.
Recording Sec.—B. V. Hicks, Ironton.
Financial Sec.—R. Almonrader, Ashland.
Treasurer—A. C. Lambert, Huntington.

R. T. Burns Special Judge.

Gov. Beckham has appointed Judge R. T. Burns, of this place, Special Judge to try the contested election case of Preston against Price, in the Johnson Circuit Court. The case will be tried March 28. The selection made by Gov. Beckham is a good one, as Judge Burns is recognized as one of the ablest jurists in Eastern Kentucky.

C. and O. Improvements.

The C. & O. railroad company has raised the limit on the stone work which they will pay for this season from \$2,000 to \$3,000 per month below Walbridge. Contractors Langhorne & Roberts have their work going right along and the allowance will permit them to run a good force of men. The limit of \$5000 per month above Walbridge still stands, and will give the contractors all the work they want to do.
